

# Elegance

## Professional Epilating System

**3 Year Warranty**

**Newest and latest technology** to provide faster response, extreme accuracy, and precise timing. This assures maximum client comfort.

### The Elegance is a true blend epilator

- Features auto memory recall of previously used settings when switching modalities. Four programmable custom settings to store favorite treatment settings.
- Proven quick release presets for all hair types. Preset settings remain fully adjustable by the electrologist.
- Air feature available in Blend & single currents modalities soothes the surface of the skin. Selectable by foot switch activation, autosense or set for continuous flow.
- Highly efficient internal power supply saves energy for low cost operation.

### Operating Features:

#### Single and BLEND current modalities:

##### **RF, DC or full BLEND:**

These currents can be activated by:

- Two footswitches - for blend or single current (RF or DC).
- One footswitch - (**Autoblend mode**) - for blend or single current (RF or DC).
- No footswitch - (**Autosense mode**) - for single or dual currents.

### Additional Elegance features:

#### **Pulse mode:**

- RF pulsing. Available with blend or RF modalities for additional client comfort.

#### **UL display:**

- Units of lye automatically calculated when using DC current and treatment timer.

#### **Timers:**

- Two timers for treatment (0-20 seconds) and session (5-60 minutes) timing.

#### **Phoresis:**

- CATA+ for post electrolysis treatments.
- ANA- for skin care treatments.

#### **Audio:**

- Audio feedback (soft tone) for operator settings and timing functions.

#### **Accessory testing:**

- Test feature for testing probe cord, footswitches and accessories.
