

**GTech**  
Pure Galvanic System

*Single Needle Operation*

Another innovative solution for permanent hair removal by Clareblend

**Newest and latest in galvanic technology:** Provides faster response and extreme accuracy. This assures maximum client comfort.

- Ease of use: Intuitive user interface to easily set desired galvanic settings, timer settings and mode selections.
- Features a “BURST” mode to accelerate galvanic treatment times while maintaining client comfort.
- Treatment activation is either selectable by the autosense feature or by foot switch activation.
- Audio feedback (soft tone) for settings and timing functions.
- Phoresis: (CATA+) positive polarity for post electrolysis treatment and (ANA-) negative polarity for skin treatments.
- Medical power supply automatically adapts to worldwide power standards
- Extremely efficient – Gtech’s power consumption is less than 5 Watts at the highest settings.
- Warranty: 2 years

Clareblend adheres to the International Standard ISO 13485 and FDA 21 CFR part 820 regulatory requirements for all product testing and verification. The “GTech 2021” epilator meets and/or exceeds these specifications. **All Clareblend equipment is proudly designed and manufactured in the USA at our Reno, Nevada facility.**
